

Kubla Cubed

Software for estimating earthworks cut & fill quantities.
The ultimate in ease-of-use and cost-effectiveness.

Affordable

With a free lite edition and a low cost annual subscription, you no longer have to pay the earth for earthworks software.

Easy To Use

Seamlessly integrates into your existing workflow. Import and export CAD, PDF, Excel and many other file formats.

Personal Support

Our specialist support team is ready to take your calls or emails whenever you need them.

Ultimate in Accuracy

Uses state of the art TIN calculation algorithms so your estimates are as accurate as it gets.
